

- Signals logged in Simulink for data-analysis:
- Also see added_signals.png in dev folder
- Use <Structure with time> as format!
 - control → kick_control → kick_control_DutyCycle
 - motionbus_SHTValue (from motion bus, lever value)
 - motionbus_battery_voltage (from motion_bus)
 - motionbus_vel_local_xyo_dot (from motionbus)

 - sensor_fusion → teambus_CPB_team (from teambus)
 - sensorfusion_block_ball_xyzdxdydz
 - sensorfusion_block_cur_xyo
