## Material List

### Required Demo Material

The following material should be taken in the Tech United truck:

- Field flight cases,
- Audio-flight case, Media-flight case,
- A number of TURTLEs (usually for a demo >3) in Robot-flight cases,
- Battery-flight case,
- Office-flight case.

### Required Computer Components

The following components should be present in the laptop-backpack:

- Two DevPC's, compatible chargers and computer mouses.
- A Wireless Router
- An Ethernet Network Cable.
- An Emergency Stop (for problems, see Appendix A, at the bottom of this page)

## Packing the IVECO Truck

When packing the Tech United truck, make sure to use the straps to secure the load. Also, make sure that when your are finished, the straps are nicely put back on the designated place.
